Metz Milos 26

TV 16.9 / 66 cm / 26"

Designed and engineered at Metz's world class manufacturing facility in Zirndorf, Germany, the new Metz Milos LCD television is an impressive union of elegant design and state-of-the-art technology. Metz's engineers have developed a set of leading edge technologies under the banner of mecavision+, which creates super-sharp, detailed pictures and lifelike motion reproduction never seen before on a LCD television. Metz's exclusive use of dual broadcast standard video processors generates colours so natural it is like looking through a window. Built-in digital and analogue tuners provide crisp, clean images for watching television, while HDMI and DVI inputs allow for connection to the latest High Definition and DVD sources, which provide picture resolution that needs to be seen to be believed. The entire Milos range is Made in Germany by the technology leader Metz and is built on the philosophy of "Quality as a matter of principle"
